

## ORDERING REAR WHEELS FROM PANTHERA

### PANTHERA SPLITS ORDERS OF REAR WHEELS INTO REAR WHEEL+PUSHRIM.

Panthera is now selling rear wheels as tire and pushrim with separate article numbers instead of one article number for a complete rear wheel with pushrim.

This change is possible due to the fact that all pushrims is now mounted from the outside without having to remove tire and tube. Thanks to this change we are reducing the number of article numbers and facilitate the stock keeping.

See tables below and on following pages for article numbers.

The price for rear wheel and pushrim separately is the same as for a complete rear wheel.
