### CUSHION X IS REPLACED WITH CUSHION S3

Due to low consumption and improved logistics Panthera will replace cushion X with cushion S3.

Cushion X has been the standard cushion for wheelchair Panthera X since 2009.

The cover- and the filling material is the same in both cushions. The only thing that separate the cushions is that the cushion S3 has a slightly simplified design of the cover and that the price is lower than cushion X. Cushion S3 has a Panthera mark i gray - black while cushion X has a marking in blue, see images above. (Click on images for larger format)

See table below for article number.
