Armrest attachment S3 / U3

Armrest attachment S3

Armrest attachment S3 with punched art.no.
for complete attachment

THE ARMREST ATTACHMENT FOR THE S3 SERIES IS UPDATED WITH A NEW VERSION

As part of our quality work we update the attachment for the S3 armrest.

Applies for all models where it's possible to mount the S3 armrest: S3, S3 Swing, U3, U3 Light families.

With this new attachment we achieve better fitting accuracy of the parts and you experience a more stable armrest when it's mounted.

A complete pair of the new attachments will be 48 grams lighter than the previous attachment.

Distinctions; The new attachment is made of polyamide, opposite the old that contained a part of aluminum.

The same assembly instruction, user instruction and parts for mounting is valid, and they are also backward compatible with all S3 armrests and chassis.

To facilitate stock-keeping, the new attachment has its own article number as shown below:
